

SERVICE ORDER ATTACHMENT  
STATEMENT OF WORK

S-200-3043 CONTINUOUS I

## 1.2 Service Summary

your  
environment to empower our seasoned penetration testers to perform traditional ethical hacker penetration testing at scale with no need for agent installation. Armed with only network access SilverSky is able to perform every action a hacker would on a continuous service basis including — scanning, reconnaissance, sniffing, spoofing, cracking (harmless) malware injection, file-less exploitation, post-exploitation, lateral movement and privilege exploitation all the way to data exfiltration. Our objective is to seek out and identify vulnerabilities correlated with exploits that are lacking a compensating control. Once identified, we then attempt to exploit these weaknesses, all without malicious intent or

Service Review Meetings SilverSky's Cyber Security Advisors oversee service delivery and meet with the customer on a continuous basis to provide strategic recommendations as a dedicated penetration testing team resource to include:

- Validating exercises using the same tactics and techniques utilized by adversaries
- Make recommendation to improve security posture and validate the removal of prior findings

Resources Furnish SilverSky with Customer personnel, facilities, resources and information and perform tasks promptly.

Cooperation- Ensure all of Customer's employees and contractors cooperate fully with SilverSky and in a timely manner. SilverSky will advise Customer if increased Customer participation is required in order for SilverSky to perform the Service under this SOW.

Documentation– Deliver in a timely fashion all documentation requested by SilverSky including Customer's security policies, network diagrams, server listings, and procedures.

### 3.2 SILVERSKY Assumptions

- Customer will provide SilverSky with reasonably requested information upon which SilverSky can rely to be current, accurate, and complete.
- Customer will provide access to Customer personnel who have detailed knowledge of Customer security architecture, network architecture, computing environment, and related matters.
- Customer will provide access to Customer personnel who have an understanding of Customer's security policies, regulations and requirements.
- Customer will evaluate SilverSky deliverables and immediately notify SilverSky of any perceived problems or issues.

#### 4.3. Acceptance

Delivery of all stated project deliverables will constitute acceptance of services provided under this SOW.
