2   Scope

2.1 SilverSky Obligations:

Kick-off Meeting - Meet to discuss and agree on customer goals and the rules of engagement for the project. This include project scoping (determining the target systems to be included in the testing), testing style (white box, black box, or gr testing), the timeframe for testing, the extent to which system exploits can be performed, and procedures to follow should any issues occur during the testing. Any additional precautions or provisions are also considered before testing.

Reconnaissance

SilverSky

- Customer will evaluate SilverSky deliverables and immediately notify SilverSky of any perceived problems or issues with SilverSky obligations.
- SilverSky will immediately notify the Customer of any perceived problems or issues regarding Customer obligations
- Customer is responsible for any additional costs if SilverSky is unable to perform the Service due to Customer's delay or other failure to fulfill its obligations under this Statement of Work.
